DATA SHEET

is-phone for IBM Lotus Notes 6/7/8

Integrated Softphone for Lotus Notes 6/7/8

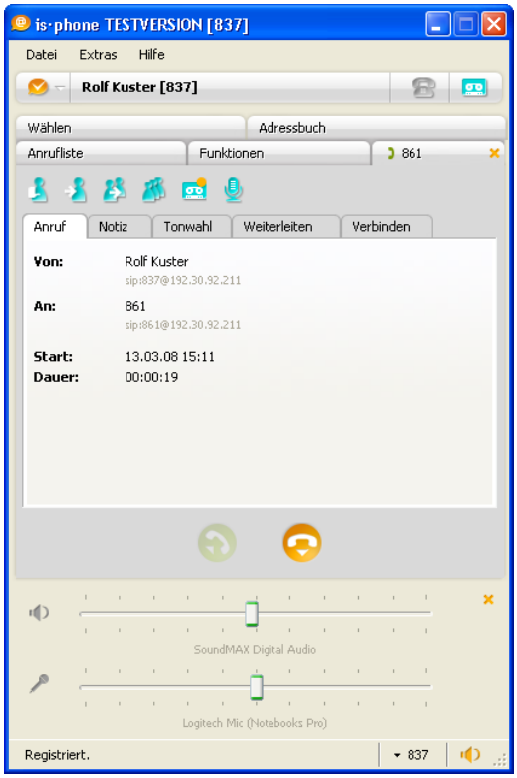

The is-phone client for Lotus Notes is an integrated softphone adding telephone functionality to the IBM Lotus Notes/Domino messaging and collaboration platform. is-phone integrates IP telephony and delivers SIP based communication for PC-to-Phone, Phone-to-PC and PC-to-PC and is ready to deploy into small, medium and large-organizations to grow collaborative communities.

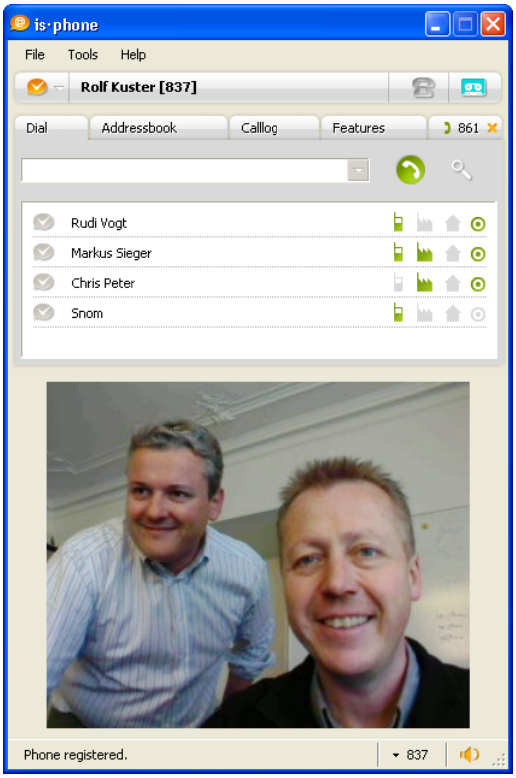

Highly integrated telephony solution - Pure client-based!

Key Benefits:

The user can access Lotus Notes/Domino contacts and databases within the is-phone client with presence information and start high quality voice and video transmission even with very low bandwidth inside an intuitive interface being interoperable with 3Com, Asterisk, Avaya, Cisco, Nortel, Siemens and other IP PBXs.
